

**analog indicator AQD**  
96 x 96 mm

**analog indicator AQ72**  
72 x 72 mm

- Moving coil for analogue display of electrical values
- Pivot and moving coil with magnetic core system
- Input 0...20 mA or 4...20 mA
- DIN size 96 x 96 mm or 72 x 72 mm

Analog indicator AQD DIN-sized 96 x 96 mm or the AQ72 DIN-size 72 x 72 mm for analog display of electrical quantities, that are shown as a 0...20 mA or 4...20 mA signal.

### Specifications

measured plant:	pivot and moving-coil nuclear magnetic system
range:	0...20 mA or 4...20 mA
internal resistance:	approx. 3 Ω
scale-length:	AQD 91 mm, AQ72 69 mm
measurement accuracy:	1,5 % from scales beginning
connection:	with screw clamp
weight:	approx. 250 g
accessories:	2 recessed cleats

### Item no.

**Display AQD**, front dimension 96 x 96 mm

**4450**

Measurement range: **Customer-specific presetting required!**

Scale deviation: **Customer-specific presetting required!**

**Display AQ72**, front dimension 72 x 72 mm

**4460**

Measurement range: **Customer-specific presetting required!**

Scale deviation: **Customer-specific presetting required!**

### SUCHARGE

**Extra range NLM**

**4401**

**Additional scale-labeling** (if technically possible)

**4402**
